

About Debra

Debra G., Hair Stylist

I have been fascinated with cosmetology since an early time and have remained passionate about my work and licensed for over 39 years.

The enjoyment of my energies has empowered my education and continuous learning along with a true love for my clients; many have become like family.

During my time, as a stylist, I have aspired to specialize in the ever-changing fashions and social environments. I have been privileged to offer my services for every manner of clientele; from the famous of noted celebrities, to those who now find challenges in their lives and warrant my personal home care visits.

I truly believe that every client is special, like a private part of my family and that's the way I always want to address my career.
