

# About Mary

**Mary Ryan, Nail Technician**

I have been a California licensed nail therapist for over 30 years, working in a variety of luxury spa, hotels, and premier salons on the Peninsula.

My focus is on the client, and providing quality, hygienic and safe care, resulting in a superior outcome and satisfaction.

To ensure this level of quality, I participate often in seminars run by the leading manufactures (CND, OPI, SpaRitual, to name a few) and expert educators (Doug Schoon; world recognized scientist and expert on nail care, Holly L Schippers; the “Fingernail Fixer®” and leading nail educator, and Lucien Henderson, a industry leading nail artist.

I am a Certified CND Grand Master, and have provided product training and protocol development services to salons in the past. I love using the CND Shellac product and we can work together on creating something fun on your nails.

Specialized or traditional services, for both women and men, I am happy to provide! I am always adaptable to your needs, your satisfaction, comfort and most importantly your safety are my priority.

I live in Menlo Park with my husband and our Border Collie “Prada”. Our amazing son is in his first year of college in New England.
